Parent login to App4students

All year 7-9 students are now using the App4students planner to keep track of homework, home study and their timetable.

The App allows students to keep track of all areas of school life whether connected to the internet or not. It also forms another link between school and home with parents verifying homework is complete by entry of a PIN. The app allows for multiple parents or guardians to be linked to the student all with their own PIN.

To connect to your son or daughter's app

1. Open the app to the front cover page and tap on the about me ‘book’ on the right hand side

2. On the pop up menu select the parent tab.

3. Complete all fields including choosing a PIN. The PIN is a 4 digit number of your choice.

Your son or daughter will need you to input your pin code when they have completed the homework and want to move it to 'signed off'. The teacher will also be able to see that you have signed off that the work is completed.
