iPads and MLMC
MLMC Username & Password

• Required for everything to do with School – using Moodle, borrowing library books.

• Username is the number; eg
  
  20fbueller

• Password looks like:
  
  M$754215b
Apple ID and Password

- Required for everything to do with the iPad – downloading & installing apps, redeeming vouchers.

- Apple ID is school email address; eg

  20fbueller@mlmc.vic.edu.au

- Password looks like:

  M$754215b
Moodle

• Moodle is the schools education web site.

• It contains a page for each of your students subjects.

• They can
  – do quizzes
  – Contribute to forums
  – Submit electronic work
  – Collect information from their teachers.

You must be at least 17 years old to download this app.
Frequent/Intense Mature/Suggestive Themes
eBooks

Ebook is short for “electronic book”. An ebook is simply a book that has been formatted so that it can be read on a screen.

**Online/Interactive**

- eBook with resources created to complement the book - worksheets, videos, games, tests.
- Requires an internet connection.
- Access to interactive resources for a year.

**Offline**

- An exact copy of a printed page, but does not adjust to your screen.
- Students download either a chapter of the book or the whole book.
Syncing vs Backing Up

Syncing
• iTunes is making sure that the data on your computer and your phone are up-to-date with each other.

Backing Up
• This process actually makes a copy of all of your device's data from all of the apps and the OS.
When ??

Syncing
• Regularly.

• Typically - copying music / apps you have purchased, making sure your calendars and address books match.

Backing Up
• Just prior to OS updates

• When your device is “broken”.

![Image of iPhone settings screen showing iCloud and backup settings]
Backup and restore your iPad

• Find the **instructions and information in the iOS user manual.** You should download it to your iBooks collection for reference.

• Connect your iPad to your computer.

• Right click on your device and choose ‘Back Up’.
iPad Restrictions

- Restrictions allow you to **restrict** what your son/daughter can see and do on the iPad.

- Can apply ratings to audio and video content as well as prevent them from installing apps or using the camera.
Restrictions

- Requires a 4 digit passcode.
- We ask that if you want them enabled, you let us know the passcode.
- Helps us when we need to turn them on or off.
WiFi Security

- Encrypted password.
- For extra security – use an Access Control List.
- Restricting access to your network to a set of devices on the Wireless Card Access List.
- Once you enable the Access List, wireless devices that are not on the list will not be allowed to join your wireless network.
WiFi Security

• Turn off the WiFi. Sometimes not feasible.

• Use a PrePaid Portable Wireless Modem. You can turn it off or on, add money to it or not.
The Home Button

- One Push
  - Exit an app
  - Return to home screen

- Two pushes
  - Bring up the multitasking bar
Multitasking Bar

• Double tap the Home button to bring up the Multitasking bar.

• **Switch between apps** – swipe finger **left or right**.

• **Close apps** – swipe finger **UP**.
Spotlight Search

• **Swipe Down** from anywhere on the home screen.

• Best way to locate apps or contacts or email messages.
Control Centre

• Start on the edge of the iPad and **Swipe Up**.

• Allows you to quickly change volume levels, turn off WiFi and take photos.
